

Graduate Placement Summer 2010

10 weeks (F/T) £6 per hour (37 hour week)

We have created a summer festival celebrating culture in Eden – “Best in Eden” Summer Festival (see www.bestineden.com). The festival draws together over 180 events during July and August, some purely arts eg workshops, performances etc, some more broadly ‘cultural’ eg agricultural show, food events etc.

The placement will involve support on the festival project. This will entail visiting events (at some we will have our own stall/gazebo and be selling promotional merchandise) , monitoring, gathering data, distributing press releases, liaising with press contacts etc etc. Ideally we would like someone to work with us throughout the festival period (July/August) and during the evaluation phase; it would be doubly ideal if the candidate were able to take on some leadership of the evaluation but this is not essential. We may consider a longer period of shorter hours.

In addition to the specific duties on the festival the successful candidate will be expected to play an active role in the general day to day activities in the Eden Arts office.

This placement is ideally suited to someone who wishes to pursue a career in arts administration, delivery, project management.
